

COASTAL DISCOVERY MUSEUM

Experience The Lowcountry Up Close

Live Virtual Experiences Guide

Since 1985, the Coastal Discovery Museum has offered educational and interactive programs to regional schools and youth-related organizations. These programs are aligned to many of South Carolina's Curriculum Standards and engage students in hands-on, experiential learning. Educational experiences are offered at our Honey Horn campus, at several off-site locations, in your classroom, and online. Children participating in a Coastal Discovery Museum program will have the opportunity to make meaningful connections between the natural history and cultural heritage of the Lowcountry.

Live Virtual Experiences allow students to connect (through Zoom Meetings) to a Museum naturalist or historian and take a closer look at the unique environment and history of the Lowcountry.

Live Virtual History Experiences

Living History with Captain William Hilton - Meet Captain William

Hilton and hear about how and why his exploration of the Carolina coast in 1663 led to an island being named after him. Learn about life aboard his 17th century sailing ship, examine important navigational tools like a chip log (used to determine speed) and a lead line (used to determine water depth), and practice some useful sailor knots. (3rd grade and up).
