COASTAL DISCOVERY MUSEUM
Experience The Lowcountry Up Close

Kids Story Time is a free Coastal Discovery Museum online resource for teachers to use with their students. We ask that all teachers using this resource register to use it.

Registration helps the Museum acquire funding so that we are able to continue to offer these resources free of charge. Please only share this content with teachers and students that are included in your registration. Teachers can register to use online resources at...

2. Story

Share this YouTube link with your students, screen share the video and watch it online with your students, or watch together in the classroom.

<https://youtu.be/c1YtSjjzdKQ>

3. Suggested Activities

Have your students help you create your own classroom acrostic alphabet with word(s) or sentences that relate to the Lowcountry. Example: A is for Alligator. B is for barnacles that grow on the pilings.

SC Social Study Standard Correlations:

K.H.3 Identify different forms of evidence used in historical inquiry, such as digital sources, maps, photographs/images, or texts. This indicator was developed to encourage inquiry into what one can learn about the world by identifying and utilizing primary sources.

1.H.1 Identify similarities and differences between one's community and other South Carolina communities over time. This indicator was developed to encourage inquiry into the defining characteristics of a students' own community. Further, inquiry should include the finding of similarities and differences among communities throughout South Carolina to build comparison skills for historical inquiry.
